

TIMPANOGOS HIGHWAY (STATE ROUTE 92) PROJECT DETAILS

- Timpanogos Highway (S.R. 92) is the main east-west corridor for the communities of northeast Lehi, Highland, Alpine and Cedar Hills.
- Project length: six miles from Interstate 15 to the intersection of Timpanogos Highway and Alpine Highway (State Route 74).
- Type of road: five-lane arterial with Commuter Lanes. Commuter Lanes are one-lane in each direction with entrance/exit points at specific locations.
- Commuter Lanes will bypass intersections, allowing motorists to connect to and from I-15 more quickly. Lanes run from Highland Blvd. to the east frontage road.
- Reconfiguration of the Highland/Alpine I-15 interchange as a Diverging Diamond Interchange.
- Trail segments will be built along the corridor.
- Additional sections of trail will be constructed by area cities and Utah County.
- Contractor: Flatiron/Harper

FUNDING

Approximately \$170 million

SCHEDULE
